Weekly Report Form

نموذج تقرير أسبوعي

Week Number: 2

Date: 21-25/7/2024

Trainee Name: Samar Al-Khayyat

Description of tasks / Assignments:

This week's tasks started with designing a user-friendly interface for a login page, that utilized various web services. After implementing the form validation and navigation, the first functionality needed was an image-based CAPTCHA, with a refresh button, to enhance usability and minimize potential issues. Subsequently, I implemented verification for the login information, consisting of a user name and a password, along with the CAPTCHA's identifier, via connection with the server. Both web services were integrated using the BLoC design to ensure clearer and more concise code.

Training Supervisor's Remarks:

Samar, has been assigned task and show strong skills, she need more practice to design make effective screen that support all screen design size, she will gain this experience through training

Training Supervisor Name: Maher Al-mamri

Training Supervisor signature: Date: 25/7/2024.
