Week Number: 3

Date: 26/7 - 1/8/2024

Trainee Name: Samar Al-Khayyat

Description of tasks / Assignments:

My task for this week was to debug a Flutter OCR project that serves as a base for a part for a larger application.

I fixed syntax errors, updated obsolete widgets to supported alternatives. Using Android Studio's debugging tool, I traced the application running on an android mobile device, helping the team to identify issues preventing expected results. I came as to where the problem was in a method responsible for reading the OCR information, it was unable to decode it properly and return it, resulting a value of null being returned.

After completing my task, I forwarded the updated code to the working team for further analysis and resolution.
