Weekly Report Form

نموذج تقرير أسبوعي

Week Number: 5

Date: 11-15/8/2024

Trainee Name: Saman Al-Khayyat

Description of tasks / Assignments:

For my last task I will be programming a fully functional flyer app -
lication, displaying flyers of different shopping markets.

This week I started with the two pages that will be shared locally on
the mobile device; meaning the user will not have to re-enter the same
information everytime the app is opened.

The first page is a location setter of the user, enabling the choice of
residence country, city and preferred language - for the language change
I configured the best approach is implementing a set of pages for each avail-
able language, to better handle its customization and layout direction.

The second page is the login page, with the options of logging into an existing
account, creating an account, logging with Facebook or Google accounts, which process
is also skipable to be directed to the items page.

Training Supervisor's Remarks:

In final stage we will start designing
project and follow up with it, until
the end of the training

Training Supervisor Name: maher Al-mari
